1966 Annual Report

During 1966, Robert M. Morgenthau, United States Attorney, Southern district of New York, presented evidence to a Federal Grand Jury investigating possible criminal violations of the Internal Revenue Code stemming out of Twin Double betting in harness racing.

Then in August, 1966, District Attorney Aaron Koota of Kings County commenced a Grand Jury investigation into possible violations of the State Penal Law by individuals in harness racing in New York State. Shortly thereafter, District Attorney, William Kahr of Nassau County also started a Grand Jury investigation with a similar purpose.

In all these various inquiries, the Commission was contacted and cooperated fully with the law enforcement agencies and assisted them in every way possible.

Since these investigations are continuing, further reference thereto is not made in this report.

1966 was the second year of the expanded season beginning on January 3rd and going through to December 15th. As anticipated, some daily averages suffered a little, but the Commission was more interested in the gross, and the grosses IN EVERY CATEGORY were up.

This was certainly a vindication of the Commission policy allowing a broader area of time for the public to attend our racing program. The tracks poured millions of dollars into physical plant expansion and improvement, and the scheduling of prestigious nationally famous horses provided excellent publicity vehicles for individual track promotions.

PURSES PAID TO HORSEMEN	\$ 20,159,717.33*

*NEW RECORDS

The effects of the LaVerne Law are becoming more evident with each passing season. The Horsebreeders Fund received \$2,023,606.12 which will help to maintain the swift acceleration of the New York State Breeding Program. More than 1290 foals will be dropped in N.Y. in 1967, truly a far cry from the 298 foals dropped in New York in 1959.

The volume of Purses to horsemen in 1966 reached \$20,159,717.33,--15.28% over 1965.

On July 1st, New York became a member of the National Association of State Racing Commissioners. This is indeed a forward step by the Commission, creating, as it does, a warm cooperative relationship between New York and all the other states administering racing programs. In Harness Racing, New York maintains a unique position, being the source of 49.18% of the National Mutual Handle, and 39.83% of the National attendance.

REVIEW OF THE COMMISSION FUNCTION

The New York State Harness Racing Commission has a general jurisdiction over all pari-mutuel activities in the State and the corporations, associations and persons engaged therein.

Such general jurisdiction includes:

FIRST- protection and security to assure the public honest, competitive harness racing.

SECOND- to remove undesirable persons, undesirable or interlocking stock interests and ownership, and any other interests which may be detrimental to the sport and to pari-mutuel harness racing.

THIRD- to supervise labor and management relations so that racketeering elements shall not be able to creep into the sport or into the administrative portions of the business, but, at the same time, to preserve the rights of employees to bargain collectively.

FOURTH- to license all persons who participate in harness racing regardless of their position or occupation and to assure a secure method for keeping undesirable elements and unfit and improper persons from participating in pari-mutuel harness racing.

FIFTH- to supervise all building programs and to audit the books and records of licensed harness racing associations, corporations, and concessionaires engaged in the business.

SIXTH- to promulgate and file rules and regulations to properly supervise the sport.

In the administration of its responsibility the Commission, by its programs, has endeavored to instill public confidence in the integrity of the sport. This has been mostly achieved by:

1. The elimination of undesirable elements through the Commission's licensing program.
2. The supervision of the security and protective measures utilized by harness racing associations.
3. The examination of saliva and urine samples obtained from horses racing to establish whether such animals have been drugged or have been given some preparation which would affect their normal racing condition.
4. Conducting investigations on all matters pertaining to harness racing.
5. The ejection of bookmakers and touts.

6. The assessment of penalties for racing violations of the rules and regulations of the Commission.
7. Conducting hearings of violations.
8. The training and appointment of competent racing officials.

One important responsibility of the Commission is the preparation, recodification and revision of the rules and regulations governing harness racing in this State.

Fully cognizant of the National scope of harness racing, the New York State Harness Racing Commission has established a close, friendly cooperation with the United States Trotting Association, wherein the exchange of ideas, records and material has noticeably enhanced the progress of the sport.

As part of this policy, Commission representatives attend the annual United States Trotting Association convention on rules and other related matters in Columbus, Ohio, in addition to having representation at the USTA District #8 meeting, which encompasses N.Y. members.

In July of 1966, the Commission became affiliated with the National Association of State Racing Commissioners which gives us a top level liaison with the administrative racing function throughout the country.

The Commission, annually conducts public hearings and conferences with racing officials, breeders, representatives of management, harness writers covering the sport, and other interested parties for the purpose of reviewing and evaluating the effectiveness of the rules and regulations.

At these conferences, the rules are exhaustively studied, committees are established to go into specific categories in depth and then submit reports to the Commission for final study, decision and action.

The Commissioners then meet in Executive session, at which they review the final recommendations of some of the most knowledgeable men in the sport, and make the decisions which will govern New York harness racing for the next season.

BREEDING IN NEW YORK STATE

REPORT OF THE AGRICULTURE AND
NEW YORK STATE HORSE BREEDERS
DEVELOPMENT FUND

Don J. Wickham, Chairman
Robert A. Glasser
George C. Paffenbarger
George W. Barker
Dr. Harry M. Zweig

The Agriculture and New York State Horse Breeding Development Fund in 1966, the first year of its operation, has provided a significant contribution to this State's over-all financial development with the full impact of this year's activities to be more directly measurable in the next two years.

As a direct result of the passage of the Laverne Bill by the New York State Legislature in 1965 which established the Development Fund, and the implementation of a comprehensive and meaningful New York Sire Stakes harness racing program for the State's eight harness racing tracks, there has been a noticeable resurgence in the standardbred horse breeding industry within the State. This is in accord with the legislative intent expressed in the law creating the Development Fund which specifies that it is in "the definite interest of the state to promote and develop agriculture generally and the improvement of the breeding of horses particularly."

In addition, the Development Fund is providing the first stable means for state-wide assistance for the repair and maintenance of physical facilities at county and regional fairs; furnishing the purses for the non pari-mutuel harness racing program at the State Exposition, as well as maintaining and improving these racing facilities, and encouraging the development of a great interest in the breeding and training of standardbred horses through a concentrated 4-H Club program.

* * *

The harness racing activities within the State provide a substantial contribution to the State's economy and in 1966 the eight tracks returned some \$70.6 million to the State which was \$5.8 million more than the preceeding year. However, to maintain this progressive increase in State revenue from this industry there is a need to assure the track patrons that there are sufficient numbers of quality harness horses available for all of the racing dates and for each of the daily races. Development of new harness tracks in Canada, Pennsylvania and other

nearby States, as well as the recent authorization of night harness racing in New Jersey, is certain to attract numerous New York patrons as well as a number of New York standardbred pacers and trotters.

The establishment of a meaningful and comprehensive New York Sire Stakes Program under the direct control of the Development Fund and the wide acclamation this program has received from standardbred horse owners indicates that a definite means has been provided to maintain the quantity and quality of harness horses available within the State to meet anticipated future requirements.

* * *

Through its New York Sire Stakes Program the Fund sanctions stake races at each of the licensed harness tracks for two, three and four-year-old horses which have been bred within the State, and provides the purses and prizes to be awarded for each of these Sire Stake races. In 1966 the Development Fund allocated \$1,063,000 to the eight harness racing associations for New York Sire Stakes races.

* * *

The availability of the Sire Stakes purses has been acknowledged by numerous horse breeding farm owners and harness horse owners as the major reason for enlarging existing farms or establishing new farms in the State. One farm near Rochester already has grown from two trotters to 22 trotters and pacers. A former prize dairy and show cattle farm on 200 acres of land in Pine Bush, N.Y. has been developed into a standardbred breeding farm which will eventually stable 175 horses.

As an added incentive to owners to breed harness horses within the State the Development Fund in 1966 provided purses totalling \$238,000 for the non pari-mutuel racing program conducted at the New York State Exposition in Syracuse.

This was the largest two-day purse schedule for standardbred horse races in the history of state fairs or expositions. The feature race at the two-day event was a \$48,000 race for three-year-old pacers.

The possibility of participating in New York-bred racing events, which in 1966 totalled \$1,650,000 in purses, has had a significant effect on the sale of standardbred horses within the State. At the annual Old Glory Sale held at Yonkers in 1966 two new records were set: 156 New York-bred yearlings were sold for \$464,870, and the highest average price ever paid per horse was \$2,980. The reason given by most purchasers for the increase in prices was the eligibility of these horses for the New York Sire Stakes.

* * *

Another facet of the Development Fund's program which is encouraging owners to establish breeding farms within the State is the nominal New York Sire Stakes sustaining fee schedule. For some \$635 a New York-sired standardbred horse can become eligible for 24 Stake events over a three-year period, and in Sire Stake #7 it is estimated that the total purses for these 24 races will be in excess of \$450,000. There is nothing comparable to this anywhere in the world.

All of these factors - meaningful New York Sire Stakes Program, nominal sustaining fee schedule, increasing average purchase price paid for New York-bred standardbred horses - are having a dramatic effect upon the standardbred horse breeding industry in the State.

* * *

Now, for the first time in history, New York State is assisting the agricultural societies to maintain and improve county and local fairgrounds which annually serve as a stimulus to the farm industry and for the improvement of

homemaking technology.

Under authority provided the Development Fund a maximum of \$6,000 can be granted during any one year to each fair, and in 1966 \$198,310 was allocated to 42 town and county fairs.

* * *

At the New York State Exposition grounds in Syracuse the construction and maintenance of the racing facilities has become a direct responsibility of the Development Fund. Some \$59,000 was expended in this phase of the Fund's operations during 1966 for race track area improvements and for repairs to the horse barns.

* * *

To encourage and develop greater interest in the breeding and training of standardbred horses among the State's citizens the Development Fund is organizing a concentrated program to meet future 4-H Club requirements. At the present time there are more than 100 4-H horse clubs throughout the State with an active enrollment of about 6,000 youths. The Development Fund's program will provide for 4-H Club horse clinics, development and acquisition of teaching material, educational scholarships, breed achievement awards, purchase of brood mares for 4-H activities and trips to breeding farms etc., for 4-H Club members.

* * *

"BREAKAGE" PROVIDES THE FUNDS

Tax monies are not involved in the expenditures of the Agriculture and New York State Horse Breeding Development Fund since these monies are not derived from general tax revenue sources, but come from the "breakage" at the harness tracks. This "breakage" represents the odd pennies left over after payments to the holders

of winning tickets are rounded off to the dime. It is interesting to note that in the sixteen states authorizing pari-mutuel harness racing all but one "breaks" to the nearest ten cents. In 1966 the "breakage" accruing to the Development Fund amounted to more than \$2 million. To this was added sustaining fees of some \$185,000 paid by owners to maintain eligibility of their horses, and over \$32,000 interest from investments.

By the terms of the Statute distribution of income is made as follows:

75 percent for purses for New York-breds at licensed harness tracks

10 percent for improving fairgrounds for county and town agricultural societies

$7\frac{1}{2}$ percent for New York State Exposition harness racing purses

3 percent for improving New York State Exposition racing facilities

2 percent for 4-H Club Standardbred Horse Development Program, and

$2\frac{1}{2}$ percent for administration.

SECURITY

EXCERPT FROM THE REVIEW OF THE COMMISSION FUNCTION:

"PROTECTION AND SECURITY TO ASSURE THE PUBLIC
HONEST, COMPETITIVE HARNESS RACING."

REPORT OF LICENSING AND INVESTIGATION SECTION

Harness Racing is a sport whose success depends for the most part upon the public confidence in its integrity. In order to maintain that confidence, the Commission makes every effort to bar and remove undesirables from participation in the sport.

To this end, all applicants for licensing are subjected to screening procedures designed to eliminate persons whose character and background make them unsuitable for licenses to engage in the sport. All applicants are required to execute detailed and sworn applications accompanied by photographs and fingerprints. False statements on the applications constitute serious violations and may result in a person's suspension, revocation, or denial of license or other legal action decided upon by the Commission.

Frequently, information reflected in an application may result in an extensive investigation conducted by the Commission in order for the Commission to make a final determination as to whether the applicant meets the necessary character requirements for licensing. Investigations of this nature are conducted with care and thoroughness so that all factors bearing on the issue of the investigation are explored in the best interests of the public.

Thanks to the excellent and continued cooperation of Messrs. J. Edgar Hoover, Director of the Federal Bureau of Investigation; Robert J. Gallati, Director of New York State Identification

and Intelligence System; Arthur Cornelius Jr., Superintendent of the New York State Police; the Ontario Provincial Police in Canada; the New York City Police and to the other local police departments in this state and other states of America, thousands of fingerprints submitted by the Commission are processed annually, making the criminal file checking function of the Commission possible.

The licensing activities of the Commission have increased substantially since the inception of licensing in 1954 due to the extension of the harness racing seasons to an almost all-year round basis. In 1966, the number of applications processed reached the level of 19,825. Of this number, 21⁴ licenses were suspended, revoked or denied because of adverse information obtained by the Commission which indicated an applicant's unfitness to hold a Commission license.

Compilation of information on harness racing participants has become so extensive in the Commission files that inquiries are received daily from harness racing authorities throughout the United States and Canada. That the Commission has become virtually an international clearing house for all matters relative to the sport is indicative of the intensive coverage and evaluation of information pertinent to harness racing.

The step-up in the licensing activities is best reflected in the figures representing the number of applications received in 1966 as compared with those processed in 1954. In 1966,

applications received, reviewed and processed numbered 19,825. In 1954, this figure was 11,417, reflecting an increase of 8,408 or 74% in 1966.

Set forth below are the figures indicating the number of applications reviewed and processed since the inception of licensing in 1954 and the number of denials and revocations of licenses since that year:

<u>YEAR</u>	<u>APPLICATIONS RECEIVED</u>	<u>DENIED</u>	<u>SUSPENDED AND REVOKED</u>
1954	11,417	230	188
1955	11,452	65	46
1956	11,736	66	95
1957	13,356	63	96
1958	15,443	91	115
1959	15,559	97	113
1960	16,077	94	85
1961	16,798	83	92
1962	17,307	78	99
1963	18,605	89	89
1964	19,543	88	117
1965	19,709	91	105
1966,	<u>*19,825</u>	<u>105</u>	<u>109</u>
TOTAL	206,827	1,240	1,349

* There were 24 applications upon which licenses were not issued because these applications were either withdrawn by the applicants, were incomplete and for various other reasons.

In 1966, the Commission approved 19,587 licenses of which 8340 were horsemen and 11,247 were in various other categories of non-horsemen, grooms, mutuel clerks, administrative help, food service, concessionaires and other miscellaneous categories.

The following is a summary, by category, of the final 1966 statistics of license denials, license suspensions and license revocations:

	<u>Denied</u>	<u>Suspended</u>	<u>Revoked</u>
HORSEMEN:			
(Owners-Trainers-Drivers)	38	34	3
NON-HORSEMEN:			
Grooms	48	42	0
Mutuel Clerks	6	6	0
Food Service	7	19	1
General Track Personnel	5	2	0
Miscellaneous	1	2	0
TOTAL	105	105	4

In 1966, the Investigation Section conducted approximately 700 special investigations on applicants and licensees who became subjects of such investigations on the basis of information received which indicated that they had criminal backgrounds or had failed to report criminal records at the time they applied for licenses. In addition, investigations were directed into the activities of licensees who were allegedly involved, or affiliated, with undesirable characters who themselves would be disqualified from participation in harness racing. In the latter

instances, investigations conducted by the Commission revealed that several licensees had applied for licensing as owners and were, in fact, "fronting" for persons with criminal records who were supplying funds for the purchase and maintenance of horses. When investigations firmly established the hidden interests of the known criminals in the horses of the licensees, the latter were immediately suspended pending hearings by the Commission with the ultimate view of revoking the licenses.

The Commission is obliged to pay tribute to those law enforcement agencies who have contributed so much to the fulfillment of the Commission's investigative functions. Local, state, and federal agencies, and district attorneys throughout the state have lent complete assistance in those cases which required the investigative facilities of these agencies. In addition, city and state police units throughout the United States have offered whole-hearted cooperation to the task confronting the Commission and have consistently furnished essential information to Commission investigators when requested.

Frequently, the Commission is in a position to reciprocate and assist local law enforcement and other agencies who require information contained in the Commission files. In these instances, the files of the Commission are thrown open to such agencies and when necessary, investigators are assigned

to cooperate to whatever extent necessary. Further, in several instances, fingerprints of applicants forwarded to the Federal Bureau of Investigation for processing revealed that the applicant was wanted in connection with a crime under the jurisdiction of that agency and, as a result of the fingerprints taken by the Commission, the fugitive was located and arrested.

The Financial Responsibility Rule adopted by the Commission makes it incumbent upon a licensee to fulfill his financial obligations at the risk of the loss of his license. The attitude of the Commission is that in a sport such as harness racing financial irresponsibility reflects upon a licensee's character and fitness. Thus, when a complaint is received by the Commission that a licensee has failed to make payment for services or materials, even if such obligations are not related to the sport, appropriate investigation is made to determine whether the licensee is purposely in default. The licensee is then ordered to take whatever steps are necessary to satisfy his creditors or face Commission action against his license.

The Commission is responsible for all security matters at the eight New York State harness tracks. Acting directly under Commission supervision, security officers maintain a constant vigilance of barns and other related areas, and occasionally spot checks are made for illegal paraphernalia, such as hypodermic needles, syringes, drugs, etc. The discovery of such items places responsibility on those persons supervising the areas, such as grooms, trainers, drivers and owners. In those

instances where such items are found, intensive investigation and interrogation of the aforementioned licensees follows and penalties imposed by the Commission are severe. Further, state and local authorities with pertinent jurisdiction are notified by the Commission for whatever action may be deemed advisable in the event a violation of law has occurred.

The Commission maintains a stringent but discreet security operation designed to protect the public at all tracks and at all times. Little publicity is attached to this effective operation which involves the barring and ejection of those individuals at tracks who are known or suspected touts, bookmakers, known gamblers, confidence men and others who prey upon an unknowing public. In 1966, hundreds of persons falling into one or more of these categories were removed from the tracks without fanfare and in several instances where such persons returned and were again discovered by security personnel, fines and sentences were imposed by local courts.

SALIVA AND URINE SAMPLES

Section 100.1 of the Harness Racing Commission rules specifies that the winning horse in every race shall be subjected to a saliva and urine test in order to determine the presence of any drug, stimulant, sedative, depressant or other medicine. The rules further authorize the track steward or presiding judge at any race meeting to order any other horse in the race to be subjected to such tests at the discretion of these officials. Further, in every race where the purse exceeds \$7,500

the second and third horses therein shall be given the saliva and urine tests.

In 1966, 18,272 samples were collected and submitted for chemical examination. In only one instance during 1966 was a sample reported to contain a drug in the urine specimen of a winning horse. Investigation at the place of race in question, namely Vernon Downs, revealed that the owner of the horse, who was also a veterinarian had placed Butazolidin in powdered form, in the feed of his horse to lessen an inflammation in the horse's leg. According to the owner, he had placed the medication in the feed at a time consistent with the Commission rules which prohibit any form of medication 48 hours prior to the race in which the horse was entered.

Investigation revealed that the horse had not fully consumed the feed which contained the medication at the time it was given to him but had finished it the following day which was the day before the race making it a violation of Commission rules.

Because he had failed to exercise proper caution in the use of medication in this instance the owner was suspended for the remainder of the 1966 season by the Commission.

The almost negligible number of cases of drugging horses in the last few years is attributable to the constant vigilance of the Commission and the immediate action taken to uncover the facts surrounding the finding of foreign substances in the urine and saliva samples.

The following figures represent the number of samples collected at all tracks under Commission supervision during 1966:

<u>TRACK</u>	<u>SALIVA</u>	<u>URINE</u>	<u>TOTAL</u>

THESE WERE THE BIG ONES-

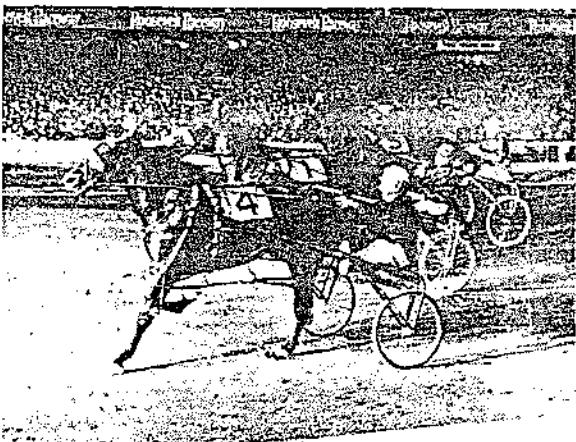

AT

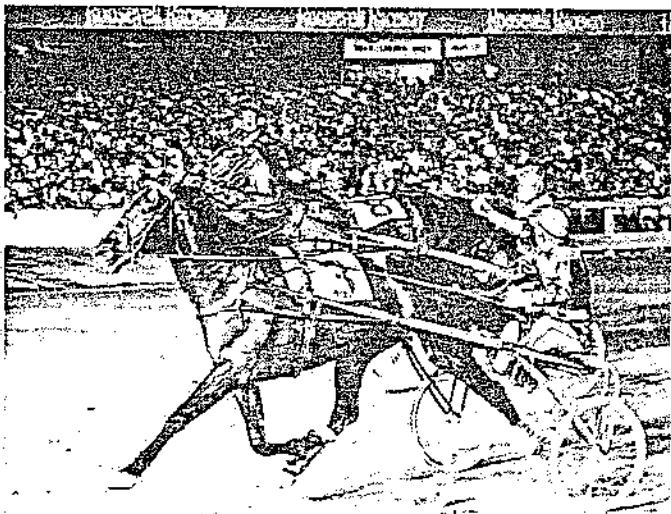

ROOSEVELT

Canada's great Armbro Flight (2) necks out France's Roquepine (7) as they battle down to the wire in the eighth edition of the \$100,000 Roosevelt International.

Bret Hanover (4) gets even with Cardigan Bay (5) who finished 3rd, in the \$50,000 Revenge Pace. Bret's time 1:59 2/5. Frank Ervin reins the great pacer. Rex Pick is the second place finisher.

Noble Victory (3) scores in a record duplicating 2:31 2/5 mile and one-quarter performance in the \$50,000 American Trotting Championship. Worthy Scot (8) finishes second.

On June 25 Perfect Freight established a world mark of 2:08 3/5 for 1 1/16 miles in annexing the \$89,111 Realization Trot. Del Insko, accepts trophy from Mr. and Mrs. William Weisman.

YONKERS

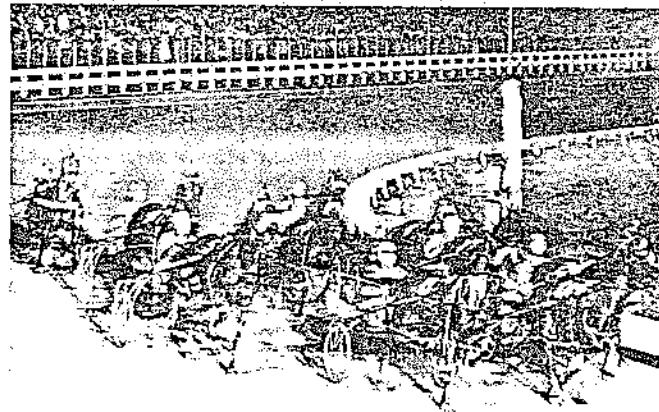

Romeo Hanover (10-Billy Myer) races to an easy $4\frac{1}{2}$ -length victory in the \$126,915 Cane Futurity Pace. Romeo toured the oval in 1:59 4/5 with Buzzy Hanover (7-Billy Current) second and Chris Time (4-George Sholty) third.

CARDIGAN BAY (3-Stanley Dancer) wins the \$65,000 Pace Of The Century, beating Bret Hanover (5-Frank Ervin) by a full length in 2:00.

Polaris (7-George Sholty) wins the \$123,015 Yonkers Futurity for three year olds by two and a half lengths. Governor Ambro (5-Joe O'Brien) was second by three-quarters and Kerry Way (4-Frank Ervin) was 3rd.

Nardin's Byrd (1A-Del Insko) leads the 10-horse \$100,000 Lawrence B. Sheppard Pace field into the first turn. The colt, owned by Arthur Nardin, held on to win the Sheppard, pacing's richest 2-year-old event. Best of All (4-Jim Hackett) finished second and Romulus Hanover (1B-Billy Haughton) wound up third. Time was 2:03 2/5.

MONTICELLO

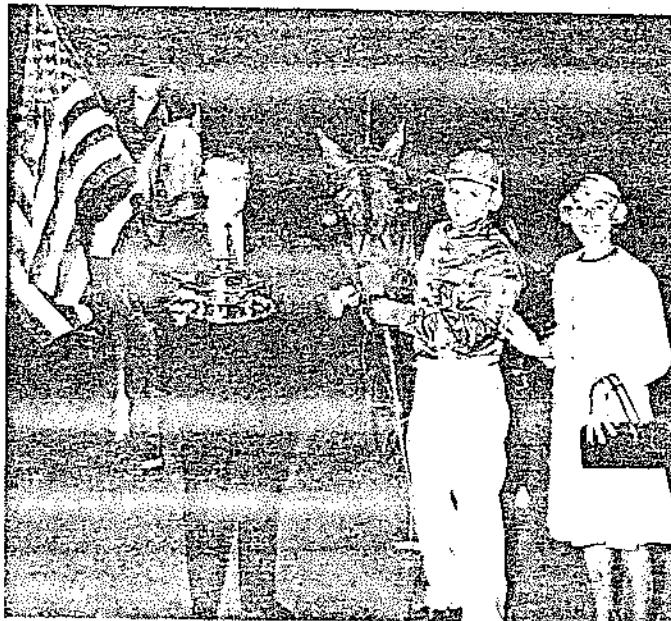

The $1\frac{1}{4}$ mile Founder's Cup Trot for a purse of \$16,865, is won by Rucky Revonah. Art Allen is in the seat behind the Vernon Dancer trained four-year-old.

Sanders Russell teams Fresh Yankee to victory in the Fred Egan Trot. The Hickory Pride three-year-old trotting filly turned back Mary Donner (1), Frank Ervin up.

Romeo Hanover hangs it on True Duane for the second straight week at the Catskill oval for driver Bill Myer. Romeo was victorious in 1:59 4/5.

Herve Fillion is all smiles after winning the \$17,600 Can-Am Series Final. Mr. Sidney Gaines and Mrs. Henry G. Friedlander present the trophy to Fillion after his 2:02 triumph with Shadydale Hymn.

*Track Record

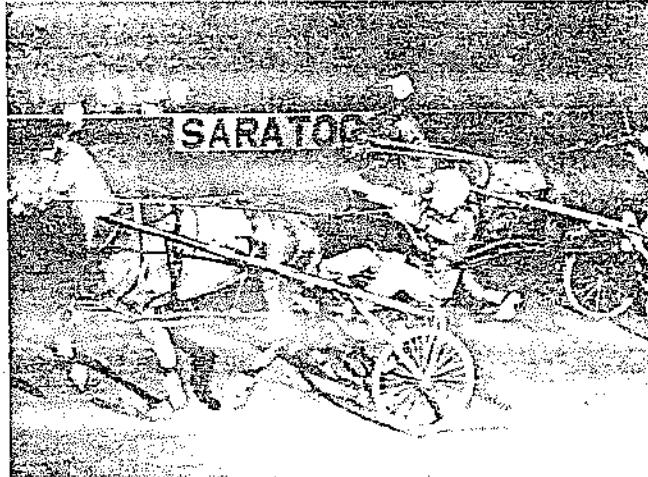

SARATOGA

Del Cameron brings Bonus Boy (8) home in front in 2:01 4/5, to set a new World Record for three-year-old trotting geldings on a half-mile track.

Noble Victory (6-Stanley Dancer) nips Speedy Rodney while setting a new World Record of 1:59 for 4-year-old trotting stallions on a half-mile track.

W.W. Smith (4-Howard Parker) paces to a new World Record of 1:58 4/5ths for four-year-old geldings on a half-mile track.

* World Record

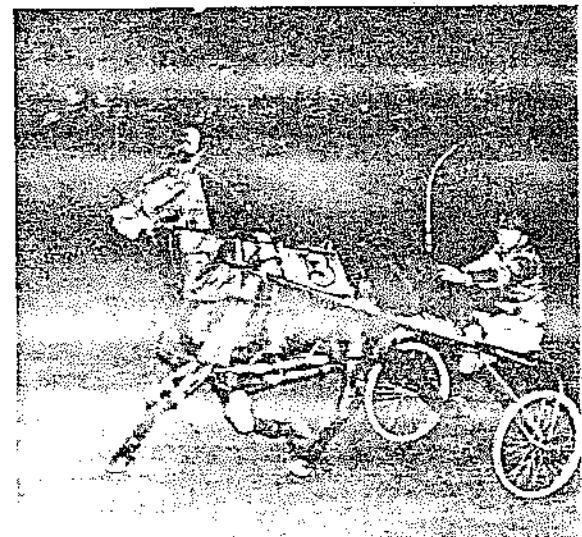

VERNON

In this composite photo, the Vernon visumatic timer reflects Bret Hanover's world record 1:54 mile in a time trial on September 2, and shows him crossing the wire with the prompter, Little Red, hot on his heels.

The "new" Vernon grandstand, enclosed this year with a weather-guard window, is the star of this photo. The modernized grandstand, with a new color scheme, new heating and new speaker system, was a major factor in giving Vernon a record season in 1966.

DeLeon Kidd, with Henry Lowe in the sulky, slips across the finish line in one of the nine straight triumphs he posted at Vernon in 1966 to crack the track record for consecutive victories.

DASH WINNING CHAMPION: DeLeon Kidd, with Henry Lowe driving throughout, established a season's and track record by winning nine straight races.

BATAVIA

Frank Ervin calmly steers Bret Hanover to a 1:58 1/5 track and season record before 15,000. The 4-year-old whipped Cardigan Bay and four other challengers in a \$25,000 Pace of the Century.

Apex Hanover, American-bred Russian-owned trotter driven by Maria Burdova, overtook Levi Harner's Lofty Hanover in a \$5,000 1 1/2 Mile International Trot.

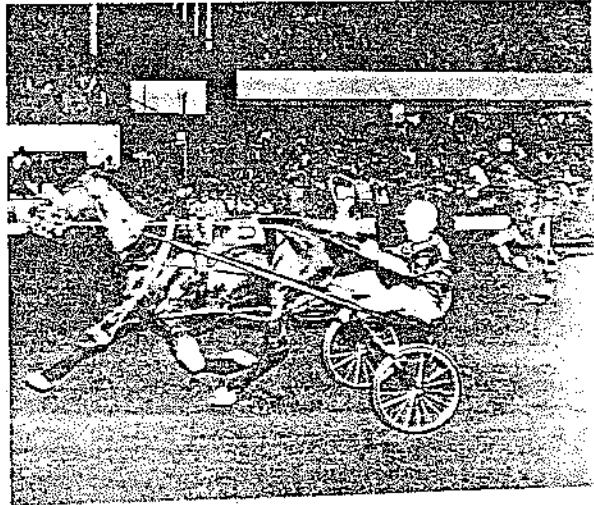

Success Cameo, Cleo Young Jr. up, held off a late rush by John Chapman's Balenzano to cop the \$10,000 HTA Empress Pace.

BUFFALO

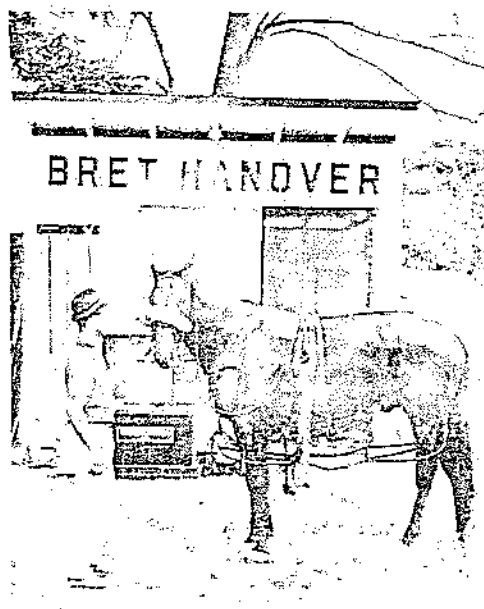

Bret Hanover driven by Frank Ervin crosses the finish line in the \$15,720 Harness Tracks of America Series, a stake witnessed by a record turnout of 12,779 fans.

Romeo Hanover posted his ninth straight victory, a 2:00 4/5 romp closing night in a \$12,933 stake. Dave Tovim drove the Dancer Hanover colt.

Buffalo Raceway's 25th anniversary race was won by the Fred Bach-reined Four Leaf. Here owner Albert Rowland accepts the trophy from Mr. and Mrs. James J. Dunnigan, Mr. and Mrs. Edward Dunnigan, James J. Dunnigan Jr., and Mrs. George A. Hanly.

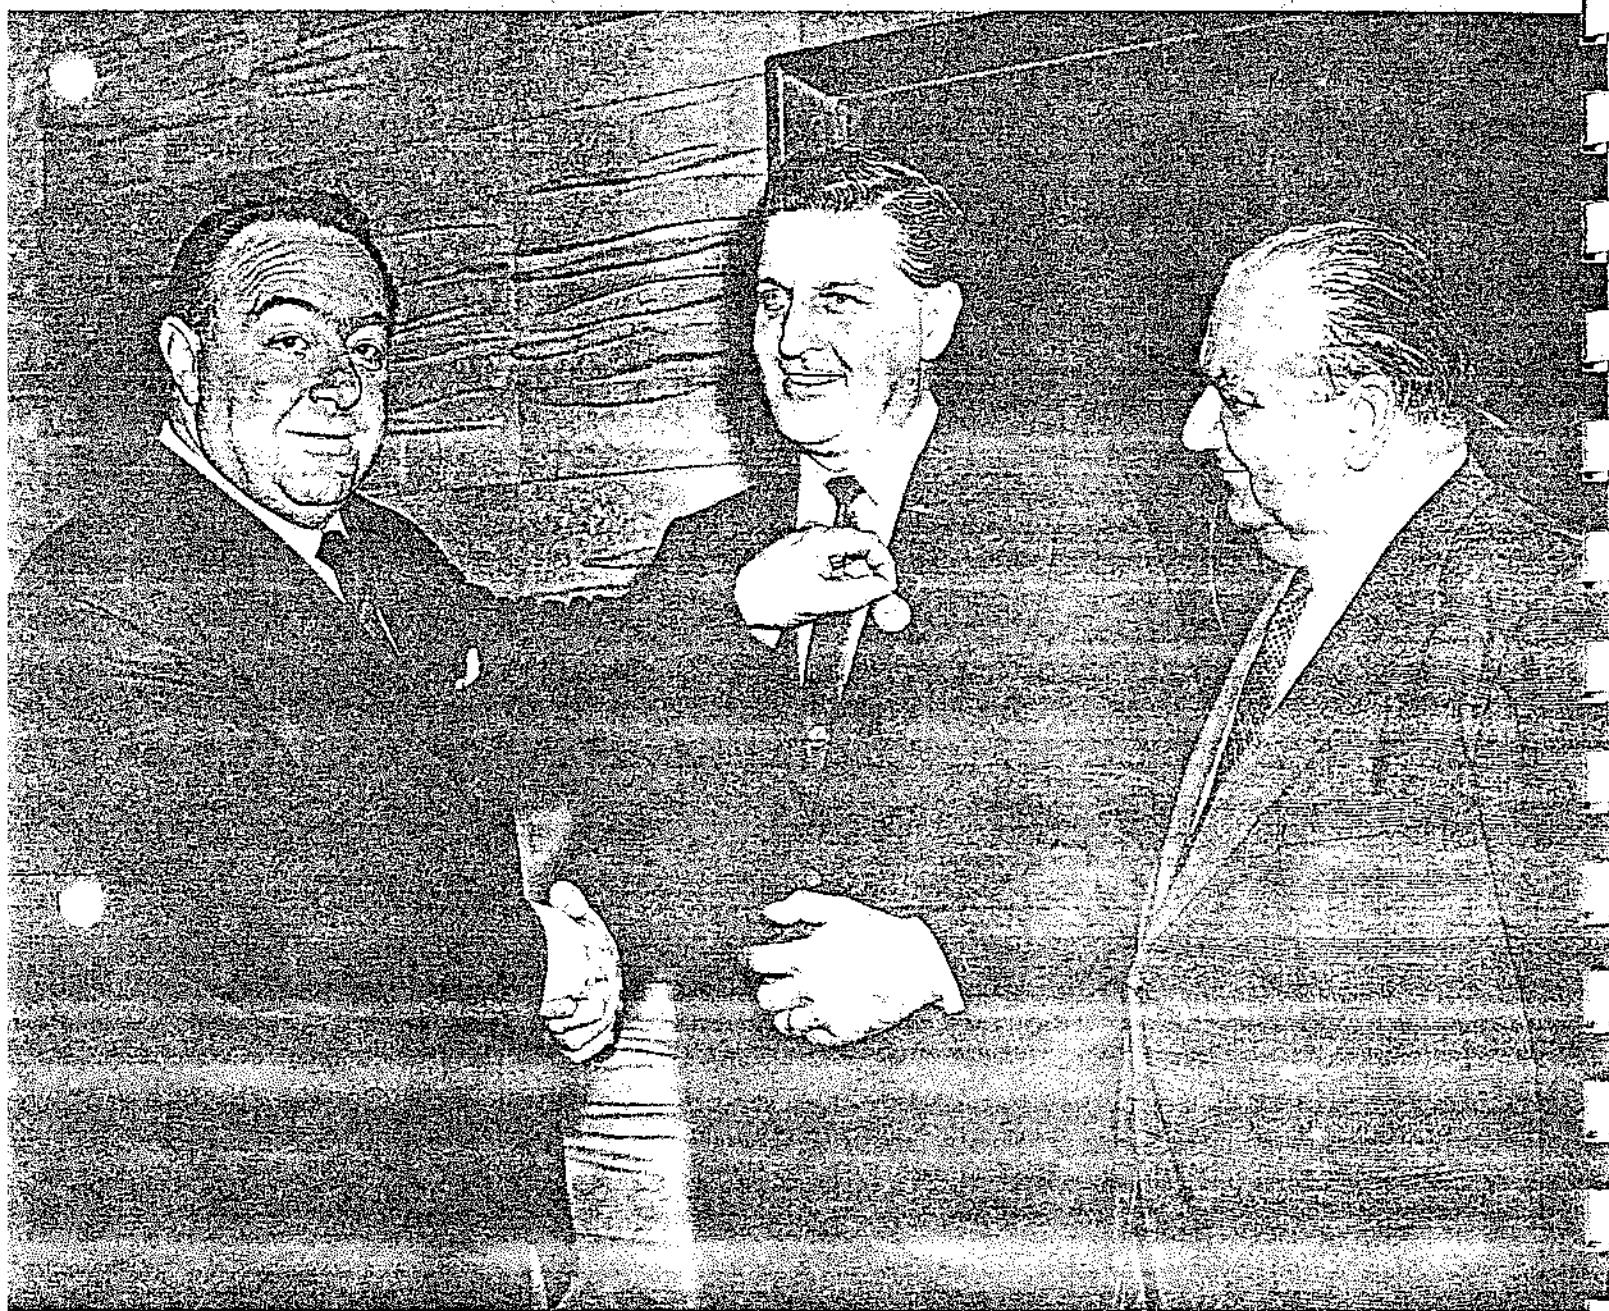

Bret Hanover enjoyed his own special stall during his visit to Buffalo Raceway. Caretaker Dave Willoughby harnesses the world champion which drew an all-time record turnout to the Raceway.

An Award

WORLDWIDE TROTTING--Robert A. Glasser (center), Chairman of the New York State Harness Racing Commission, accepts a gold medal from UNIRE, the Italian body that governs harness and flat racing in Italy. The award was made in recognition of his service to International Harness Racing. Avv. Giuseppe Spagnolo, President of UNIRE, and Ing. A. Carena (left), Vice-President of ENCAT, the Italian breeders and owners association, made the presentation.
