Submit as Exhibit VIII.C.3.a. copies of current local zoning approvals and any rezoning or variances that are required and any land use approvals, a detailed explanation of the status of any request for any of the foregoing with copies of all filings, including a specific schedule of applications for zoning approvals and anticipated approval dates.

The Town of Nichols does not have any Site Plan review procedures and the Proposal was acceptable for current zoning with respect to land use. A height (area) variance was required with respect to the proposed Hotel. The Town of Nichols Zoning Ordinance, Supplementary Regulations states; “6. Height Regulations: No building or structure of any type in any district or zone shall exceed thirty-five (35) feet in height, except by special permit granted by the Town of Nichols Zoning Board of Appeals. Permit procedures shall be those specified in Item 5, Section X, of this ordinance.”

No additional zoning appeals are planned, submitted or anticipated as part of the Project Proposal.
