The commission may deny a license to any applicant who:

§ 5102.11. Amendment.

It shall be the continuing duty of each applicant or licensee to promptly file with the commission a written amendment to the application explaining any new or changed facts or circumstances whenever any material or significant new or changed facts or circumstances occur with respect to any matter set forth in the application or other papers relating thereto. Any applicant or licensee may be permitted by the commission to file any other amendment to such applicant or licensee's application at any time prior to final action thereon by the commission. § 5102.13. Withdrawal.

(a) Prior to a final action by the commission on an application, regardless of whether a temporary license has been issued, any applicant may withdraw an application filed with the commission by filing a written notice of such withdrawal. Upon the receipt of such notice, the commission will cease processing such application, but shall retain such application and materials in accordance with applicable law.

(b) The commission may refrain from processing any application submitted by any applicant that has previously withdrawn an application for a period of one year from the date of such withdrawal.

(c) No fee or other payment relating to any application shall become refundable by reason of withdrawal of the application unless otherwise determined by the commission for good cause shown.

(b) The commission may deny a video lottery gaming license to an applicant who has otherwise been determined to be a person whose prior activities, criminal record, if any, or reputation, habits and associations pose a threat to the effective regulation of video lottery gaming in this State; or if the granting of such license to the applicant would create, or enhance, the chances of unfair or illegal practices, methods, and activities in the conduct of the video lottery gaming under the act; or if such applicant has failed to provide any information reasonably required by the commission to investigate the applicant for a license or to reveal any fact material to such application, or has furnished any information that is untrue or misleading in connection with such application, or fails to submit such information that, if submitted, would make the statements in any application, in light of the circumstances in which they were made, not misleading.

(c) The commission may deny a video lottery gaming license to an applicant who fails to provide such information, documentation and assurances required by the act or these regulations, or as requested by the commission, or who fails to reveal any fact material to suitability, or who supplies information that is untrue or misleading as to a material fact pertaining to licensing suitability criteria;

(e) The commission may deny a video lottery gaming license to an applicant upon determination that the applicant has engaged in fraud, deceit, misrepresentation or conduct prejudicial to public confidence in the state lottery;

(f) Notwithstanding the provisions of this section, an applicant who has been convicted of any criminal offense may receive a video lottery gaming license at the discretion of the commission. In determining whether the applicant may receive such license, the commission shall consider the following factors:

(b) Any natural person whose license application was denied, or whose license was suspended or revoked by the commission on the basis of any of the statutory or regulatory provisions in paragraphs (1) through (4) of this subdivision (b) below, may reapply for a

license upon satisfaction of the relevant requirements specified below. If the denial, suspension or revocation is based upon two or more of such regulatory provisions, the commission shall permit reapplication only upon compliance with the requirements of this subdivision as to each such provision. Any person seeking to reapply pursuant to this subdivision shall file a certified petition stating with particularity how the specified requirements have been satisfied.

(1) Failure to demonstrate financial stability: Reapplication is permitted upon achieving financial stability.

(3) Pending disposition of a charge of a criminal offense if the Lottery has determined to deny a license application or suspend or revoke a license while such charge is pending: Reapplication is permitted upon disposition of the pending charge.

(4) Any statutory or regulatory provision that is subsequently repealed or modified: Reapplication is permitted upon a showing that the subsequent repeal or modification of the statutory or regulatory provision obviates the grounds for denial or revocation and justifies the conclusion that the prior determination should not be a basis for denying a license application.

(c) Except as otherwise set forth in these regulations, any person whose application has been denied or whose license has been revoked may reapply upon submission of sufficient evidence demonstrating that the factual circumstances upon which the denial was based have been cured to the satisfaction of the commission.

(d) Any person whose license has been revoked may reapply upon submission of sufficient evidence demonstrating that the factual circumstances upon which the denial was based have been cured.

(c) Any licensed entity needing to contract for or employ temporary personnel shall provide to the commission a completed temporary service provider identification number request form, no later than 24 hours prior to arrival of the temporary service provider at the facility. The failure to file such request form shall be a violation of the entity's license, the act and these regulations.

(d) The video lottery gaming agent may issue visitor badges to persons performing services for a period not greater than one business day provided that such visitor is escorted by a licensed employee at all times. If such visitor requires access to restricted areas, the visitor must be accompanied by a licensed key employee, unless otherwise approved by the commission.

Financial Stability of Video Lottery Gaming Agents

Section	
5104.1	Financial stability criteria
5104.2	Financial stability reporting requirements
5104.3	Failure to demonstrate financial stability

§ 5104.1. Financial stability criteria.

(a) Each video lottery gaming agent, and each of such agent’s principals, shall establish and maintain during the pendency of such video gaming agent license the financial stability of such licensee to the satisfaction of commission. The commission may consider any relevant evidence of financial stability. A video lottery gaming agent shall be considered to be financially stable if such agent establishes by clear and convincing evidence that such agent meets each of the following standards:

(1) Each video lottery gaming agent must assure the financial integrity of video lottery gaming operations by the maintenance of a video lottery gaming bankroll, or equivalent provision(s), adequate to pay prizes to video lottery gaming patrons when due. A video lottery gaming agent shall be found to have established this standard if it maintains, on a daily basis, a video lottery gaming bankroll, or equivalent provisions, in an amount at least equal to the facility’s immediate cash requirement exposure for player prizes. Prior to receiving a certificate of operation for the video lottery gaming facility, each video lottery gaming agent must submit to the commission a calculation of their video lottery gaming bankroll to be maintained at the commencement of each gaming day. Such calculation shall be based upon prize valuation levels. The bankroll will be reviewed by the commission, and shall guarantee that the vault funding by weekday is at least equal to 200 percent of the projected average daily prize claims at the video lottery gaming facility. Each video lottery gaming agent must continually review and evaluate daily bankroll requirements and notify the commission in writing if it requests to change the amount of the minimum bankroll. Such notification must be provided to the commission at least 10 days prior to the implementation of the new funding level. Maintenance of a minimum bankroll is subject to audit or review by the commission. Failure to maintain adequate funding levels consistent with this requirement will be a violation of the video lottery gaming agent’s license.

(2) Each video lottery gaming agent must be able to pay, as and when due, all local, State and Federal taxes, including the tax on gross revenues imposed by the video lottery gaming law, and any costs associated with the licensing process.

(3) Video lottery gaming agents must maintain the video lottery gaming facilities and related amenities in good repair. Each video lottery gaming agent shall submit annually to the commission for review, any changes or updates to capital reinvestment plan for the video lottery gaming facility together with the then effective capital reinvestment plan. The commission shall review such changes and updates to insure that each video lottery gaming agent is investing portions of the vendor fee and marketing allowance permitted by the act in the facilities infrastructure as is necessary to support viable and successful video lottery gaming in this state. Each capital reinvestment plan submitted shall be in such form as required by the commission and shall discuss the improvements made to the facility since the submission of the last reinvestment plan. Video lottery gaming agents must budget for repair and replacement reserves to maintain the facilities unless otherwise prohibited by law. Each video lottery gaming agent’s tables of organization shall provide for:

Each incident, without regard to materiality, shall be assigned a sequential number and, at a minimum, the following information shall be recorded in an electronic file that prohibits or tracks any changes or in indelible ink in a bound, laboratory-type notebook from which pages cannot be removed and each side of each page of which is sequentially numbered:

This plan should be approved in writing by the commission prior to start up and any changes in the plan should be submitted to the commission for approval.
- (6) The count room shall each be supervised by a video lottery gaming key employee, who shall be responsible for the supervision of the count.
- (7) A video lottery gaming agent that operates video lottery gaming in more than one room of the video lottery gaming facility may be required to maintain a separate cashiers' cage in each room. - (d) The video lottery gaming agent's personnel shall be trained in all internal control and accounting practices and procedures relevant to each employee's individual function. Special instructional programs shall be developed by the video lottery gaming agent in addition to any on-the-job instruction sufficient to enable all members of the departments required by this section to be thoroughly conversant and knowledgeable with the appropriate and required manner of performing of all transactions relating to their functions.

(e) Notwithstanding any other provision of the commission's regulations to the contrary, a video lottery gaming agent may designate and assign more than one person to serve jointly as the manager of a department so long as each person assigned has been licensed as a key employee and such assignment does not undermine the purpose of the internal control procedures. Each person serving as a joint manager of a department shall be individually and jointly accountable and responsible for the operations of that department.

(f) Each department required or authorized by this section shall be supervised at all times by at least one video lottery gaming key employee; provided, however, that the commission may, upon request by a video lottery gaming agent, exempt the internal audit department or the MIS department from this requirement.

The video lottery gaming agent shall be solely responsible for the design of the internal control system and for maintaining all the provisions and requirements of such system in day to day operations. The video lottery gaming agent shall not commence gaming operations unless and until the submitted internal control system is approved by the commission.

(d) The commission shall review each submission and shall determine whether it conforms to the requirements of the Act, these regulations and the guidelines established by the commission. If the commission finds any insufficiency, it shall specify such insufficiency in writing to the video lottery gaming agent, which shall make timely and appropriate revisions and provide same to the commission. When the commission completes a review of the final submission and finds no insufficiencies, the commission shall so notify the video lottery gaming agent in writing. The commission reserves the right to direct the video lottery gaming agent to revise such agent's internal control procedures at any time if the commission determines that an internal control weakness exists.

(e) The video lottery gaming agent shall submit to the commission for review and approval any changes to such agent's approved internal control system not less than 60 days before the changes are to become effective, unless otherwise permitted in writing by the commission.

(f) If an event occurs at the video lottery gaming facility that would not allow for a 60-day review by the commission as set forth in subdivision (e) of this section, an emergency shall be deemed to exist. In such event, the video lottery gaming agent shall be permitted to make an emergency amendment to the approved internal control system as follows:

(1) In the event of an emergency, the video lottery gaming agent may amend an internal control procedure.

(e) In addition to a video lottery gaming agent's audited financial statements, the video lottery gaming agent shall submit a copy of the management letter prepared by the independent certified public accountant that lists any internal control or operational weaknesses noted during the financial statement audit and recommendations for

The video lottery gaming agent shall prepare a response to the issues outlined in the management letter that describes any corrective actions taken or planned to be taken and include a copy of this response with such agent's submission to the commission as required in subdivision (d) of this section.

(f) In addition to the management letter, the commission may require the video lottery gaming agent to engage an independent certified public accountant approved by the commission to perform an additional review of internal controls and/or specified expenditures that conform to specifications prescribed by the commission. The disagreements to be reported shall include those resolved and those not resolved;

(3) whether the principal accountant's report on the financial statements for any of the past two years contained an adverse opinion or disclaimer of opinion or was qualified.

The nature of such adverse opinion, disclaimer of opinion, or qualification shall be described;

(4) the video lottery gaming agent shall request the former accountant to furnish to the video lottery gaming agent a letter addressed to the commission stating whether that accountant agrees with the statements made by the video lottery gaming agent in response to subdivision (h) of this section. Such letter shall be filed with the commission as an exhibit to the report required by subdivision (h) of this section.

(i) The commission has the authority to conduct or have conducted an audit or review of any of the video lottery gaming agent's financial controls and records.

Requests for such extension must be submitted to the commission in writing prior to the required filing date. Quarterly reports shall be due not later than 45 days following the end of the last month of any quarter.

(d) Copies of all financial statements and statistical reports required to be filed with the commission shall be furnished by the video lottery gaming agent.

§ 5109.3. Format and structure of accounting records.

It is the affirmative responsibility of all licensees to keep informed of the content of all such regulations, policies and procedures and amendments thereto. Any licensee, other than a natural person, may be held accountable for the violations of such licensee's principals or key employees. The

commission may suspend or revoke any license issued by the commission for any violation of these regulations.

- (10) the failure to notify the commission, in writing, within a reasonable time of any arrest for a misdemeanor or a felony, indictment, or service of a summons, or conviction for any felony whether within or without the State, or within or without the United States, occurring during the term of the license or the renewal thereof.

(c) Prior to commencing a disciplinary proceeding, each licensee shall have the opportunity to correct and/or explain the issue raised by the commission.

Such licensee shall be banned from entering the video lottery gaming facility for a period of one year or until the license is reinstated, whichever first occurs.

(e) Upon termination of a video lottery gaming agent's license for any reason, the video lottery gaming agent shall:

By reason of the substantial investment of State revenue in each video lottery gaming facility, in the event of a termination of the video lottery gaming agent's license, the commission or the commission's designee may take possession and control of such video lottery gaming facilities and amenities to insure the uninterrupted operation of the video lottery gaming facility until such time as a successor to such video lottery gaming agent is approved by the commission. During any such period of operation by the commission or the commission's designee, the agent compensation shall be retained by the commission for the benefit of the fund.

§ 5113.3. Initiation of disciplinary proceedings.

(a) Except as otherwise provided by the act or these regulations, at any time during the review and investigation of a complaint or alleged violation of the act or these regulations, the commission may initiate disciplinary proceedings:

(1) to suspend or revoke any license or certificate issued pursuant to the act; or

(2) to otherwise sanction the agent or licensee for violations of the act or these regulations.

(b) Disciplinary proceedings commenced by the commission shall be initiated by sending a notice by first class mail to the last known mailing address of the licensee. Such notice,

without limitation, shall set forth a list of the grounds for the proposed disciplinary action; the time and place for a hearing before the commission concerning the proposed disciplinary action; and a statement of the disciplinary action sought to be imposed against such licensee. Such notice shall be mailed to the licensee not less than 30 days prior to the scheduled hearing date.

§ 5113.4. Summary suspension.

(a) Where the commission has reasonable grounds to believe that any licensee has been guilty of a deliberate, willful or a grossly negligent violation of any of the provisions of the act or these regulations, including, without limitation, the failure to pay when due the moneys due and owing to the commission pursuant to the act or these regulations, or that the licensee has been charged with a felony under the laws of the State or in another state, or that due to other violations of law by the licensee or the licensee's patrons, emergency action is required in order to protect the public health, safety, or welfare of the public, and where the commission incorporates such findings in an order, the commission may summarily suspend the license and the licensee without prior notice pending disciplinary proceedings pursuant to these regulations.

(b) The summary suspension of a license without notice pending a public hearing shall be for a period not to exceed 30 days except that a licensee may waive the 30-day hearing requirement in writing no later than five business days prior to the scheduled hearing. In no event, however, shall the requested continuance be granted unless the licensee requesting the continuance has complied with the order of summary suspension by surrendering their license to the commission.

(c) The commission shall deliver a notice of summary suspension by registered mail to the licensee who has been suspended. The notice shall contain such information as the commission determines necessary to provide the licensee with notice of the summary suspension and the reason(s) therefore, including, without limitation, stating when the suspension will begin and end.

(d) The commission shall serve upon the summarily suspended licensee a formal notice initiating disciplinary proceedings and a notice of hearing within five days after receipt by the licensee of the notice of summary suspension.

§ 5113.5. Penalties imposed by commission prior to reissuance of license.

The commission may require a person or business entity who is subjected to disciplinary proceedings, or who formerly held a license pursuant to these regulations, to meet certain conditions before reissuing a license to that person or business entity, including but not limited to the following:

(a) In addition to the condition imposed by the commission upon the licensee, the licensee shall pay, pursuant to an order issued by the commission or the commission's authorized representative, the costs incurred by the commission in making the determination to discipline, suspend or revoke, including, without limitation, the costs of the commission's vendors and contractors engaged for such purpose.

(b) Costs may include, but are not limited to: witness fees and per diem; expert witness fees; duplication costs; court reporter, transcription, and other costs incurred in administering or preserving any record; extraordinary staffing costs of the commission; legal fees; expenses incurred in commencing, accommodating, or conducting the hearing; investigative costs; exhibit costs; and any other judicially or statutorily recognized cost, whether incurred prior or subsequent to the conclusion of the investigation of the matter.

(c) Unless otherwise ordered as set forth in subdivision (a) of this section, costs must be paid to the ordered recipient on or before the 30th day from the date of the order awarding the costs, unless stayed by the commission or a court of competent jurisdiction. Failure to pay and tender such costs as ordered shall constitute grounds for sanction, including further fine, suspension and revocation of any license or other affirmative approval.

§ 5113.7. Disciplinary hearings.

Any disciplinary hearing commenced pursuant to these regulations shall be conducted substantially in accordance with the provisions of section 5000.6 of this subtitle. In the event of a conflict between that section and these regulations, these regulations shall control.

§ 5113.8. Final action by commission.

After notice and hearing, in the event the commission finds insufficient evidence to support the violations claimed, the commission may find the licensee not guilty of any of the grounds alleged for disciplinary action; in which event the disciplinary proceedings shall be terminated. The commission may, however, find the licensee guilty by a preponderance of the evidence of some or all of the grounds alleged for disciplinary action, in which event the commission may take one or more of the following actions:

- (a) revoke the license;
- (b) suspend the license for a period of time not to exceed six months;
- (c) fine the licensee; or
- (d) issue a public or private letter of reprimand to be placed in the file of the licensee.

This section does not prevent the commission from compromising or settling at any time a formal hearing. Written findings of fact, conclusions of law, and an order must be entered before any decision of the commission shall be considered final.

(b) All such marketing, promotion and associated costs incurred by any video lottery gaming agent shall be:

- (1) consistent with the customary manner of marketing and promoting comparable operations in other states and as described in an approved marketing plan; and
 - (2) subject to the overall supervision of the commission.
- (c) Each video lottery gaming agent shall establish a marketing allowance account for the deposit of the marketing allowance as required by these regulations.
- (d) Withdrawals from the marketing allowance account established by each video lottery gaming agent shall be permitted to reimburse the video lottery gaming agent for those expenses identified in a marketing plan approved annually by the commission pursuant to this part.
- (e) Any withdrawal from the marketing allowance account by a video lottery gaming agent that is not approved by the commission or identified in a marketing plan approved by the commission shall be a violation of the video lottery gaming agent's license, the act and these regulations.
- (f) Nothing in these regulations shall prevent a video lottery gaming agent from incurring marketing, promotional and associated costs in excess of the marketing allowance, provided that this excess is identified in the marketing plan.
- (g) Marketing allowance funds shall be made available to each video lottery gaming agent via a reduction to the daily remittance proceeds due to the commission. The daily remittance report on the central system shall include such reduction. It shall be the responsibility of the video lottery gaming agent to deposit the marketing allowance daily into an account dedicated and restricted to reimbursement of marketing, promotion, and associated costs of the video lottery gaming facility.

§ 5116.2. Marketing and promotion plan.

- (a) Each video lottery gaming agent shall prepare annually a marketing and promotion plan (the "marketing plan") for the video lottery gaming facility. Each annual marketing plan shall be submitted to the commission for review and approval as described in this part. An annual marketing plan shall include a summary of projected net machine income, projected marketing allowance, and projected expenditures by category, in a standard worksheet format prescribed by the commission. The marketing plan worksheet shall include budgeted marketing expenditures by month and in total for each standard category. Such worksheet shall be reviewed by the commission as part of the overall plan approval.
- (b) The failure to submit any marketing plan when due to the commission shall be a violation of the video lottery gaming agent's license, the act and these regulations.
- (c) Each annual marketing plan must:
- (1) be prepared in accordance with the format prescribed by the commission;

(2) fully describe, in a narrative form, subject to the approval of the commission, the marketing and promotional activities that the video lottery gaming agent proposes for their video lottery gaming facility for the subsequent 12-month period commencing on the first day of January of any calendar year. Such description must include the overall strategy of how the marketing allowance will be used for marketing, promotional and associated costs consistent with the customary manner of marketing and promoting comparable operations in the video lottery gaming entertainment industry in other states, and that are expected to be implemented at such video lottery gaming facility on a monthly, quarterly and annual basis, the target market for such marketing and promotion, and the anticipated effect (return on investment) of the marketing, promotional and associated costs described; any and all media buys advertising the video lottery gaming facility, whether directly or indirectly; and an itemization of the projected budget for all marketing and promotional expenses on a monthly, quarterly and annual basis.

(d) Each annual marketing plan must be submitted to the commission for review and approval not earlier than 120 days and not later than 90 days prior to January 1 of any calendar year.

(e) The commission shall review the annual marketing plan upon receipt and provide objections, questions or comments, if any, to the video lottery gaming agent within 45 days.

(f) If the marketing plan is approved by the commission without comment, then the video lottery gaming agent may proceed with the marketing plan's implementation commencing on the first day of January of any calendar year.

(g) In the event the commission objects or comments on the marketing plan, or any portion thereof, such objection, comment or question shall be delivered to the video lottery gaming agent in writing together with a disapproval notice of the submitted marketing plan in whole or in part.

(h) Not later than 15 days from the receipt by the video lottery gaming agent of a marketing plan disapproval notice from the commission, or such longer time as the commission and the video lottery gaming agent may agree in writing, the video lottery gaming agent shall address the commission's objections or comments and submit an amended marketing plan to the commission for review. Upon submission of the amended marketing plan to the commission, a new 45-day time period for commission review will commence as described by this part.

(i) In the event the annual marketing plan is not approved by the commencement date of the marketing plan as agreed to by the commission for any year, the commission may, but shall not be required to, enter into an interim marketing plan agreement with the video lottery gaming agent for a period not to exceed 90 days from such commencement date. Such interim marketing plan shall be in such form as approved by the commission and govern the expenditure from the marketing allowance account during such 90-day period

for marketing, promotion and associated costs approved in such interim marketing plan. In the event the commission does not approve an interim marketing plan, or in the event an interim marketing plan expires, the video lottery gaming agent shall not be entitled to reimbursement from the marketing allowance account until a marketing plan is approved by the commission.

(j) During any fiscal quarter covered by a marketing plan, the video lottery gaming agent may submit proposed adjustments, including an adjusted marketing plan worksheet and supporting documentation, to the marketing plan to the commission for review and approval. The commission shall have 15 days from the receipt of any proposed adjustment(s) to the marketing plan to review, approve or disapprove such adjustments in writing.

(1) In the event the proposed adjustments to the marketing plan are approved by the commission, written approval shall be sent to the video lottery gaming agent and the marketing plan shall be deemed amended accordingly.

(2) In the event such adjustments are disapproved by the commission, such disapproval, and the reason(s) therefore, shall be sent to the video lottery gaming agent in writing.

§ 5116.3. Establishment of the marketing allowance account.

(a) Each video lottery gaming agent shall establish a marketing allowance account with a financial institution in accordance with these regulations. Marketing allowance funds shall be deposited daily to the marketing allowance account but in no event more than five business days after the accrual of such allowance.

(b) By establishing the marketing allowance account, each video lottery gaming agent irrevocably pledges, assigns and grants the commission a security interest in and control over the marketing allowance account (as a deposit account) and all funds held or to be held therein, including, without limitation, all interest, dividends, cash, instruments and other property from time to time received, receivable or otherwise distributed, and all replacements, substitutions and proceeds of any of the foregoing. To perfect the commission's interest in the marketing allowance account, the commission may file such uniform commercial code financing statements and renewals thereof as necessary in the appropriate filing office(s).

(c) The commission is not responsible for the loss or theft of any money in the marketing allowance account.

(d) In the event the marketing allowance account contains a balance remaining at the end of any 12-month marketing plan period, and any such balance is not approved to be used for reimbursement of marketing and promotion costs as identified in a marketing plan approved by the commission for the immediately succeeding period, such balance shall

be carried forward into the succeeding year and included in the marketing plan for that year.

(e) A video lottery gaming agent may submit a request for reimbursement of qualified marketing expenses by updating the marketing plan worksheet and submitting it to the commission for review and approval.

(f) The video lottery gaming agent shall arrange for monthly financial institution statements to be provided by the video lottery gaming agent's financial institution directly to the commission.

§ 5116.4. Marketing and promotion plan implementation.

(a) The commission or the commission's representative may, at the commission's discretion, review the books and records of the video gaming agent, to determine additional needs for assurance regarding utilization and reimbursement of the marketing allowance. Each video gaming agent shall maintain sufficient documentation and a clear audit trail to support the reimbursement of any and all marketing allowances.

(b) Any reimbursement of a marketing allowance, as determined by audit to be a non-qualified marketing expense, shall be immediately returned to the marketing allowance account by the video gaming agent and interim updates to the marketing plan shall incorporate expenditure of the additional allowance.

(c) After a marketing plan is approved by the commission, the video lottery gaming agent will be permitted to receive reimbursements from the marketing allowance account of such sums equal to the marketing and promotional expenses incurred by such agent in accordance with the approved marketing allowance plan as expenses are accrued in accordance with generally accepted accounting principles. Reimbursements shall be made in accordance with a schedule approved by the commission.

(d) The video lottery gaming agent shall cause such agent's financial institution to agree that withdrawals shall be permitted from the marketing allowance account only pursuant to a commission approved disbursement request. Any withdrawal from the marketing allowance account not in accordance with this provision shall be a violation of the video lottery gaming agent's license, the act and these regulations.

(e) Each video lottery gaming agent shall submit, or cause to be submitted, monthly a completed marketing plan worksheet documenting or describing the marketing plan implementation by such agent to the commission by electronic methods. Such monthly worksheet shall be in such form and be submitted in accordance with a schedule approved by the commission.

(f) The failure of the video lottery gaming agent to submit any monthly worksheet required by this Part shall be a violation of such agent's license, the act and these regulations.

(g) Each monthly worksheet shall contain cross references by date, amount and account codes to the relevant disbursement from the marketing allowance account so that such documentation and or other information can be reconciled with the approved marketing plan.

(h) (1) The commission shall review each scheduled or required report submitted by the video lottery gaming agent and audit the same against the approved marketing plan. Exceptions, discrepancies or questionable spending identified by the commission must be explained by the video lottery gaming agent in a timely manner to the satisfaction of the commission, but in no event later than 30 days from the date of the commission's initial inquiry. The failure of the video lottery gaming agent to adequately respond to any inquiry of the commission shall be a violation of these regulations and may result in commission actions to include, without limitation, those described in paragraph (1) of subdivision (j) of this section.

(2) The video lottery gaming agent shall prepare each report in a professional manner detailing the marketing expenses for which it is seeking reimbursement to ensure that only qualified marketing expenses have been included in such reimbursement request. Qualified marketing expenses are defined in section 5116.5 of this Part and in guidance documents as may be issued by the commission. Should the commission determine that the video lottery gaming agent has submitted expenses that do not qualify for reimbursement appropriate penalties may be applied.

(i) The monthly marketing allowance expense report shall, without limitation, summarize the expenditure made from the marketing allowance account and provide details and supporting documentation as determined by the commission in evidence of the expenditures from such marketing allowance account.

(j) In the event an expenditure or discrepancy raised by the commission cannot be adequately explained by the video lottery gaming agent, or in the event any violation of these regulations remains uncured for a period of one through 30 days, the commission, in addition to any other remedy permitted by these regulations, may take any or all of the following actions:

(1) require the video lottery gaming agent to reimburse the marketing allowance account an amount equal to the discrepancy;

(2) reimburse the commission for the cost of the commission's expenses related to researching and investigating such expenditure or draw against the marketing allowance account.

(k) Within 45 days of the end of each quarter for an applicable marketing plan, in the event the monthly marketing expense reports are deemed insufficient at the sole discretion of the commission, the commission may require a video lottery gaming agent to provide the following information:

(1) a full and complete reconciliation of the previous quarter's marketing, promotion and associated costs incurred; and

(2) an accounting for the cash spending related to the marketing allowance withdrawn from the marketing allowance account.

(l) Annually each video lottery gaming agent shall provide to the commission a report by an independent auditor of the content of the final annual statement of marketing expenses in a type and format prescribed by the commission.

(m) Each video lottery gaming agent shall maintain sufficient documentation to support the reimbursement of any and all of such agent's marketing allowance expenses.

§ 5116.5. Permitted marketing and promotion expenses.

(a) The following qualified marketing expenses incurred by a video lottery gaming agent pursuant to an approved marketing plan under these regulations shall be reimbursable from the marketing allowance account:

(1) advertising;

(2) complimentary services;

(3) promotions;

(4) group sales;

(5) direct mail expenditures;

(6) player's club expenses, except as otherwise provided in Section 5116.9 of this Part;

§ 5121.5. Accounting controls for the cashiers' cage, satellite cages.

(a) The assets for which the general cashiers are responsible shall be maintained on an imprest basis. The imprest balance of each general cashier's bank will be identical and such balance will be the same at the end of the shift as it is at the beginning of the next shift.

(b) The count room shall be designed and constructed to provide maximum security for the materials housed therein and for the activities conducted therein. The video lottery gaming agent shall design and construct a count room with, at a minimum, the following security measures:

(1) a metal door or door of other construction approved by the commission installed on each entrance and exit;

(2) each entrance and exit door shall be equipped with:

(i) two separately keyed locks; and

(ii) an alarm device, approved in writing by the commission, that audibly signals the surveillance department and the security department whenever a door to the count room is opened;

(3) each lock required by subparagraph (i) of paragraph (b) of subdivision (2) of this section shall be controlled by a key that is different from:

(i) the key to the other lock on that door;

(ii) the keys to the locks securing the contents of each drop box;

(4) the key to one of the locks required by subparagraph (i) of paragraph (2) of subdivision (b) of this section shall be maintained and controlled by the security department in a secure area within the security department, access to which may be gained only by a security department supervisor, and the key to the other lock shall be maintained and controlled by the video lottery gaming department; and

(i) effective and detailed audio-video and/or digital monitoring and recording of the entire count process; and

(ii) effective, detailed video or digital monitoring and recording of the interior of the count room, including storage cabinets or trolleys used to store bill acceptor drop boxes; and

(iii) no disposal containers or such shall be allowed at any time in the room.

§ 5121.7. Drop boxes, transportation to and from video lottery terminals; storage.

(a) Each video lottery gaming agent shall place on file with the commission a schedule setting forth the specific times at which the drop boxes will be brought to or removed from the bill acceptors in video lottery terminals. Each video lottery gaming agent shall also maintain and make available to the commission upon request, the names and employee license numbers of all employees participating in the transportation of such drop boxes. If the commission requires that a commission representative be present for transportation of drop boxes, no drop box shall be brought to or removed from any video lottery terminal or removed from any bill acceptor at other than the time specified in such schedule except with the express written approval of the commission. Notwithstanding the foregoing, the video lottery gaming agent may develop and utilize a plan for removing the drop boxes from the terminals under exigent circumstances. If a video lottery gaming agent alters procedures for removing drop boxes due to unforeseen exigent circumstances, the video lottery gaming agent must timely notify the commission of the reasons for the change in procedures and the details of how the drop boxes were removed.

(b) Except as otherwise provided in paragraph (3) of this subdivision, all drop boxes removed from video lottery terminals shall be transported directly to and secured in the count room by at least one video lottery gaming security department member.

(1) Upon the removal of a drop box from a video lottery terminal, such drop box shall be immediately placed in an enclosed trolley that is secured by two separately keyed locks. The key to one lock shall be maintained and controlled by a video lottery gaming department member. The key to the second lock shall be maintained and controlled by the video lottery gaming security department in a secure location. Access to the video lottery gaming security department’s key shall be limited to supervisors in that department and shall be controlled, at a minimum, by a sign-out and sign-in procedure

approved in writing by the commission. The video lottery gaming security department key shall be returned to such key's secure location immediately upon the completion of the collection and transportation of the drop boxes.

(2) Prior to the movement of any trolley containing drop boxes from the video lottery gaming floor, a video lottery gaming supervisor shall verify in writing that the number of drop boxes being removed from the gaming area equals the number of drop boxes that have been loaded on the trolley, and that the lock controlled by the video lottery gaming security department has been activated. If a trolley is being transported from the gaming floor to the count room, a video lottery gaming supervisor shall also verify that the gaming department lock on the trolley has been activated.

(3) A drop box being replaced by an emergency drop box shall be transported directly to and secured in the count room by at least one video lottery gaming security department member and one video lottery gaming supervisor, and the use of a trolley shall not be required.

(c) Except as provided in subdivision (d) of this section, all drop boxes not attached to a video lottery terminal, including emergency drop boxes that are not actively in use, shall be stored in the count room or other secure area outside the count room approved in writing by the commission, in an enclosed storage cabinet or trolley and secured in such cabinet or trolley by a separately keyed, double locking system. The key to one lock shall be maintained and controlled by the video lottery gaming security department and the key to the second lock shall be maintained and controlled by a video lottery gaming department employee. Access to the video lottery gaming security department's key shall be limited to a supervisor of that department.

(d) Notwithstanding subdivision (c) of this section, the supervisor of the video lottery gaming security department may, immediately prior to the commencement of the count process, issue the key to the storage cabinet or trolley to a count room supervisor for the purpose of gaining access to the drop boxes to be counted. Any key removed from the video lottery gaming security department shall be returned immediately following the conclusion of the count of the drop boxes and the return of any empty emergency drop boxes to their respective storage cabinet or trolley. The video lottery gaming security department shall establish a sign-out and sign-in procedure approved in writing by the commission for all such keys removed. Each video lottery gaming agent that permits the video lottery gaming security department key to be issued to a count room supervisor shall submit for review and written approval internal control procedures governing the control over the key when the count team takes a break.

§ 5121.8. Opening, counting and recording of drop box contents.

(a) The contents of the drop boxes shall be counted and recorded in the count room in conformity with this section unless the commission has expressly approved in writing an alternative plan submitted by the video lottery gaming agent. Under no circumstances shall the video lottery gaming agent conduct counting and recording of the drop box

contents in a manner that does not comply with the one set forth in these regulations or one that has been expressly approved in writing by the commission.

(b) The video lottery gaming agent shall place on file with the commission the specific times during which the drop boxes are to be removed from video lottery terminals and the specific times during which the contents of the drop boxes are to be counted and recorded. Drop boxes shall be removed from video lottery terminals and be counted and recorded with sufficient frequency to allow daily electronic funds transfers of all money owed to the commission and the State, including tax and other withholdings, as applicable.

(c) The opening, counting, and recording of the contents of drop boxes shall be performed in the presence of a count room supervisor. To gain entrance to the count room, an employee shall present a video lottery gaming credential with photograph.

(d) All persons present in the count room during the counting process shall wear a full-length short-sleeve (mid-forearm), one-piece pocket-less outer garment with openings only for the arms, feet, and neck, unless another type of garment is approved in writing by the commission.

(e) No person present shall:

(1) carry a pocketbook or other container unless it is transparent; or

(2) remove his or her hands from or return them to a position on or above the count table unless both the backs and palms of his or her hands are first held straight out and exposed to the view of other members of the count team and the closed circuit television camera.

(f) Immediately prior to the commencement of the count:

(1) the doors to the count room shall be securely locked;

(2) a count team member shall notify a person assigned to the surveillance department closed circuit television monitoring room that the count is about to begin, after which such person shall make an audio-video and/or digital recording, with the time and date inserted thereon, of the entire counting process, which recording shall be retained by the surveillance department for at least 21 days from the date of recordation unless otherwise directed in writing by the commission; and

(3) the count room supervisor, or his or her supervisor, shall record, in writing, the name and employee license number of each person who shall participate in the counting process and whether each such individual is scheduled to:

(i) be present in the count room during the entire counting process;

(ii) enter the count room during the counting process; or

(iii) leave the count room prior to the conclusion of the counting process.

(g) No person shall be permitted to enter or leave the count room during the counting process, except in an emergency, unless such person's name is on the written notice required by paragraph (3) of subdivision (f) of this section.

(1) If the video lottery gaming agent permits a member of the count team to enter or leave the count room during the counting process, any employee remaining in the count room shall be required to display his or her hands in accordance with subdivision (e) of this section and to step away from the count table until the count team member has entered or left the count room.

(2) The counting and recording process shall be discontinued whenever less than three count team members are present in the count room.

(3) Once the counting process has been started, the count room supervisor shall be required to notify the surveillance department closed circuit television monitoring room whenever a count room door will be opened, prior to the opening of such door.

(h) Procedures and requirements for conducting the count shall be as follows:

(1) as each drop box is placed on the count table, one count team member shall orally announce, in a volume of voice to be heard by all persons present and to be recorded by the audio-video and/or digital recording device, the game, video lottery terminal number, and shift marked thereon for drop boxes;

(2) in full view of the closed circuit television cameras located in the count room, the contents of each drop box shall be emptied on the count table and either manually counted separately on the count table or counted on a currency counting machine that is located in a conspicuous location on, near or adjacent to the count table;

(3) immediately after the contents of a drop box are emptied onto the count table, the inside of the drop box shall be held up to the full view of a closed circuit television camera and shall be shown to a second employee to assure that all contents of the drop box have been removed. The drop box shall then be locked and placed in the storage area for drop boxes approved in writing by the commission;

(4) the contents of each drop box shall be segregated by a count team member into separate stacks on the count table by each denomination of currency by type, record or document, except that the commission may permit the utilization of a machine to sort currency automatically by denomination;

(5) each denomination of currency shall be counted separately by one count team member who shall place individual bills of the same denomination on the count table in full view of a closed circuit television camera, after which the currency shall be counted by a second count team member who shall be unaware of the result of the

original count and who, after completing this second count, shall confirm the accuracy of the total, either orally or in writing, with that reached by the first count team member, except that the commission may permit the video lottery gaming agent to perform aggregate counts by denomination of all currency collected in substitution of the second count by drop box, if the commission is satisfied that the original counts are being performed automatically by a machine that counts and automatically records the amount of currency, and that the accuracy of the machine has been suitably tested and proven. The commission may permit the utilization of currency counting machines if prior to the start of the first use of the counting machine each gaming day, except for subparagraphs (i) and (ii) of paragraph (5) of this subdivision, the count room supervisor shall:

- (i) verify that the counting machine has a zero balance on such machine's terminal unit display panel and has a receipt printed that denotes "-0- cash on hand" and "-0- notes in machine," or some other means to indicate that the machine has been cleared of all currency;
- (ii) visually check the counting machine to be sure there are no bills remaining in the various compartments of the machine;
- (iii) supervise a count team member who shall randomly select a drop box and place the entire contents of that drop box into the first counting machine, which shall count the currency by denomination and produce a print out of the total amount of currency by denomination. Any soiled or off-sorted bills shall be re-fed into the machine and manual adjustments shall be made to the total. The total as recorded on the counting machine and any adjustments made thereto shall not be revealed to anyone until the final verification process is completed;
- (iv) supervise a second count team member, independent of the team member performing the initial count by machine, who shall manually count and summarize the currency from each drop box counted in accordance with subparagraph (iii) of paragraph (5) of this subdivision. This total shall be posted and maintained separately from the total posted in subparagraph (iii) of paragraph (5) of this subdivision and shall not be revealed to anyone until the final verification process is completed;
- (v) supervise the second count team member's passing of the currency to a count team member, who shall be unaware of the results of the manual count. The count team member shall count the contents of that drop box counted in subparagraph (iii) of paragraph (5) of this subdivision (h) using a second counting machine. Such machine shall produce a printout of the total amount of currency contained in the drop box. Any soiled or off-sorted bills shall be re-fed into the machine and manual adjustments shall be made to the total. The total as recorded on the counting machine and any adjustments thereto shall not be revealed to anyone until the final verification process is completed;

(vi) following the completion of the test procedures, compare the totals from the test receipts of both counting machines, as computed in subparagraphs (iii) and (v) of paragraph (5) of this subdivision (h), to the manual total computed in subparagraph (iv) of paragraph (5) of this subdivision. If the three totals compared above are in agreement, the count room supervisor shall sign and date and record his or her employee license number on his or her test receipts and forward such receipts to the accounting department at the end of the count process;

(vii) if the three totals do not agree, appropriate repairs shall be made to the counting machine and the procedures in subparagraphs (i) through (vi) of paragraph (5) of this subdivision shall be repeated until all totals are in agreement. The counting machine shall not be used until these totals are in agreement.

(6) as the contents of each drop box are counted, a count team member shall manually record or cause a computer system to record, in a manner approved in writing by the commission, the following information on the master game report or other supporting documentation by video lottery terminal identification number:

(i) the amount of each denomination of currency counted;

(ii) the amount of all denominations of currency counted;

(iii) the gaming date of the items being recorded and the date the Master Gaming Report is being prepared or generated.

(7) after the contents of each drop box are counted and recorded, a member of the count team shall manually record or cause the computer to record on the master game report, by game, the total amount of currency together with such additional information as may be required on the master game report by the commission or the video lottery gaming agent.

(8) notwithstanding any inconsistent requirements in paragraphs (1) through (7) of this subdivision, if the video lottery gaming agent's system of internal controls provides for the count team functions to be comprised only of counting and recording currency, the video lottery gaming agent's accounting department employees shall perform all other counting, recording and comparing duties required by this section.

(9) after preparation of the master game report, the count team members performing the banking functions and the count room supervisor shall sign and record their employee license number on the reports attesting to the accuracy of the information recorded thereon. All other count team members shall either sign and record their employee license number on the master game report or such other document as approved in writing by the commission as evidence of their participation in the counting of the drop boxes. Any person who, in accordance with subdivision (f) of this section, is scheduled to leave the count room prior to the completion of the entire count process, shall also sign and record such person's employee license number and shall

record the time that such person exited the count room. Any person who enters or leaves the count room due to an emergency shall sign and record their name, employee license number, and time of the entry or exit on the master game report, or such other document as approved in writing by the commission, except that, if the person exiting the count room is unable to sign the document due to the nature of the emergency, the count room supervisor shall record the person's name, employee license number, the time of exit and a notation describing the emergency on the document.

(i) After the contents of all drop boxes have been counted:

(1) All cash shall be presented in the count room by a count team member to a main bank cashier or cage supervisor who, prior to having access to the information recorded on the master game report and in the presence of a count team member shall recount, either manually or mechanically, the cash presented and attest by signature and employee license number on the master game report the amounts of cash counted, after which the employee shall sign the report evidencing such employee's presence during the count and the fact that both the cashier or cage supervisor and the count team have agreed on the total amounts of cash counted. The video lottery gaming agent may, if approved in writing by the commission, present the main bank cashier or cage supervisor with the cash obtained from the count of the drop boxes either:
